Work Experience

Senior Product Manager

HITRUST, Frisco, TX — May 2025 – Sep 2026

- Owned product strategy and roadmap delivery for HITRUST's MyCSF compliance and certification platform, serving 4,500 users across 2,000 accounts; prioritized usability improvements that reduced the time required for customers to complete HITRUST assessments.
- Drove cross-functional implementation of a strategic pricing and packaging transformation with Bain & Company, translating new subscription models into MyCSF product workflows and Salesforce order processes, enabling accurate subscription provisioning and contributing to 20% company ARR growth.
- Established Pendo implementation and product analytics strategy across 2 applications, tagging 50+ pages and 300+ features and launching 15 targeted in-product guides in 3 months; increased adoption of targeted features by 40% and reduced support tickets by 20%.
- Built and defended the business case for Pendo to executive leadership, presenting to ~30 stakeholders and becoming the organization's primary Pendo owner; integrated Pendo with Salesforce to connect behavioral data with account, ARR, customer type, and product information, enabling data-driven customer insights.
- Launched targeted in-app CCSFP/CHQP renewal and enrollment experiences that contributed $40K in revenue within the first month by re-engaging previously expired customers and prompting customers approaching expiration to renew.
- Drove product requirements and cross-functional delivery for Report Center, helping transition sensitive report distribution from emailed PDFs to an authenticated, permission-controlled workflow with recipient watermarking and QR-based validation to strengthen report authenticity and reduce tampering and fraud risk.
- Used behavioral analytics and session replay to identify customer friction and product issues, reducing issue investigation time from ~2 hours to ~10 minutes and enabling faster diagnosis without relying on manual reproduction.
- Delivered the Certification Revocation Initiative, delivering real-time certification-status visibility and reducing manual oversight by 30% through automation.
- Defined the product strategy for an AI Questionnaire automation that leverages historical customer assessment data to automatically populate compliance questionnaires, significantly reducing manual effort.
- Shaped product strategy and requirements for an in-development assurance initiative focused on identifying organizations seeking security assurance, AI-assisted evidence evaluation, and lightweight entry-level assessments, shaping new pathways into HITRUST's certification ecosystem.
- Accelerated backlog refinement and sprint readiness by leveraging generative AI to draft dev-ready user stories, identify cross-initiative dependencies, and identify gaps and ambiguities in requirements.
- Guided customer enablement for major product launches, including Report Center, through in-product guidance, user documentation, and customer webinars supporting adoption of new authenticated and watermarked reporting capabilities.

Senior Technology Product Manager

Wolters Kluwer, Coppell, TX — Dec 2022 – May 2025

- Led product strategy and roadmap execution for CCH SureTax, driving platform improvements that increased successful API call rates by 10% and reduced transaction processing errors.
- Enabled the Returns API integration for CCH SureTax for SAP, an SAP Endorsed App that brings U.S. sales and use tax filing and reporting into SAP S/4HANA, generating seven-figure revenue in the first 3 months of launch.
- Drove deployment of a Machine Learning SKU-mapping model that automatically categorized raw product descriptions, eliminating manual data mapping and improving calculation accuracy across the product catalog.
- Established Pendo as the team's behavioral analytics platform across CCH SureTax (40 pages, 100 features), identifying user drop-off points and high-impact features for the first time, directly informing roadmap prioritization.
- Delivered citation references across 140,000+ transaction types, giving customers direct access to the regulatory basis behind each tax calculation to support audit defense and compliance documentation.
- Conducted 20+ customer interviews for CCH SureTax to identify pain points and shape roadmap priorities, later leveraging that research to help inform pricing strategy and packaging for CCH Investigator, an add-on to CCH SureTax.
- Partnered with Sales, Support, and Marketing to prioritize customer-reported enhancements, bugs, and defects, meaningfully reducing related support ticket volume.

- Automated SureTax account and user creation to trigger immediately upon order form submission, reducing customer onboarding time from 4 weeks to 1 week.

Senior Implementation Specialist

Thomson Reuters, Carrollton, TX — Jul 2022 – Dec 2022

- Engage as the subject matter expert on the implementation of Onesource Indirect Tax in SAP ERP systems, ensuring seamless integration and compliance.
- Perform technical and functional roles on indirect tax projects led by TR PMs, Partner Firm, and customers
- Consult clients on business processes, configuring tax engines for optimal performance.
- Troubleshoot and resolve software issues, providing effective solutions and workarounds.
- Document design and solutions from business and requirement sessions, ensuring clarity.
- Managed projects through all phases, delivering on time and within scope.

Senior Tax Analyst

Thomson Reuters, Carrollton, TX — Sep 2019 – Jul 2022

- Enhanced GoSystem tax software for federal and state projects, ensuring compliance and accuracy.
- Led annual training for new analysts on proprietary tools, improving team efficiency.
- Designed and coded IRS tax forms, ensuring precise calculations and compliance.
- Debugged and tested software, ensuring error-free tax returns for paper and e-file.
- Collaborated with tax departments to cross-test systems, ensuring functionality and accuracy.
- Partnered with cross-functional teams to streamline tax software updates, enhancing overall system integration.
- Mentored junior analysts, improving their proficiency in proprietary development tools and increasing team productivity.
- Developed new tax form designs in compliance with IRS regulations, ensuring up-to-date and accurate tax calculations.

Tax Analyst

Wolters Kluwer, Wichita, KS — Jun 2018 – Aug 2019

- Maintain and enhance Prosystem and Axcess tax software, ensuring compliance with new regulations.
- Mentor analysts on tax queries, improving team knowledge and program efficiency.
- Resolve time-sensitive queries, enhancing software usability and user satisfaction.
- Address electronic filing rejects, ensuring successful tax return submissions.
- Implement enhancements from customer requests and tax law changes, improving software functionality.

Sales Consultant

Best Buy, Wichita, KS | May 2015 – Jun 2018

- Helped lead store performance to the top 25% nationwide in Verizon activations and services in consecutive months.
- Ranked among the top ten salespeople in the district for digital imaging and general sales.
- Sold TVs, phones, computers, and other electronics, matching hardware, accessories, connections, content, and services to customer needs to hit monthly store revenue goals.
- Trained and coached mobile staff to reach business goals through Best Buy's sales philosophy and culture.
- Ensured smooth store opening and closing procedures to reduce shrink.
- Answered questions about product features and explained the benefits to customers in an engaging way that built excitement for the products and services.
